Faculty of Social Sciences Doctoral Students Union Representative candidates 2026

László Rónavári-Kedves

As a doctoral student, I believe that effective representation should be based on genuine dialogue and cooperation. Drawing on several decades of experience in organizational leadership and community development, I would like to contribute to strengthening connections and knowledge sharing among doctoral students at the Faculty of Social Sciences, while helping to ensure that their perspectives are effectively represented within the University.

Jyldyz Djakypbay Kyzy

As a PhD student in Sociology, I am motivated to become more involved in our doctoral community and connect with PhD students from different departments and backgrounds. I would love to contribute to creating a stronger and more supportive community where we can share experiences, support one another, and make the PhD journey a little easier together.

Thank you for your support, and I look forward to the opportunity to contribute to our PhD community 🙂.
