2. Activities

In January 2026, the activities of the Doctoral Students' Council were primarily of a preparatory nature. I participated in faculty leadership meetings (preparatory meetings), which mainly focused on the tasks expected during the year, the operation of the upcoming semester, and the preparation of the vice dean elections. In this context, changes concerning the position of Vice Dean for Research at the Faculty of Humanities were reviewed: Ildikó Horn received an appointment as Vice Dean for Research at the university level, while at the Faculty of Humanities the position will be filled by Gábor Vadera in the future. At the Faculty Council meeting held on 29 January, the evaluation of applications for the vice dean positions also took place.

Another key task during the month was the preparation for the visit of the Hungarian Accreditation Committee (MAB). In this process, we contributed to recruiting doctoral student participants for the panel discussions and to organizing the related information flow. These

tasks were carried out in continuous coordination with the Faculty of Humanities Doctoral Council and the Doctoral Office.

Preparations for programmes related to the spring semester were also initiated; details of these activities will be presented in a subsequent report.
