

Report of Zoltán Kovács, president of the supervisory board

- 2026. 05.18 - ELTE EDÖK Board of Presidents
- 2026. 05.29 - ELTE EDÖK General Assembly

1. Report

In may, I was present at both the board of presidents meeting and the general assembly. At these meetings, I helped keep track of the voting members present, and prepared the online secret ballots. At the general assembly, a new modification of the statutes was introduced, which helps with the operations of EDÖK, and makes the election period easier to handle for the supervisory committee. I also had discussions with András Gombás, the president of EDÖK about preparing "template" documents, such as the reports of the election results, so that members of the supervisory board can just fill them out with the actual results.

I don't have plans of remaining the president of the supervisory board in the next election period, so I'm currently looking for a successor. According to the statutes of EDÖK, the president of the supervisory board can be any student, not necessarily PhD, or be employed as a public servant by the university. If any member of the general assembly knows someone who fits these criteria, and would like to help the work of EDÖK, feel free to send them my contacts, and I can tell them a bit about the position.

Thank you, for reading my report. If you have a question for me or for the supervisory board, you can reach me at **eb@edok.elte.hu**.
